iBall Nirantar Online UPS – 1201E (W/O Battery)

Key Points:

- LCD Display: Trendy and Elegant LCD Design for real-time UPS system information like Input / Output voltage and current, Load and Battery information, Bypass enable / disable selection information.
- **Microprocessor Control:** By means of innovative software and control programs, the complicated hardware circuitry is inlaid in the powerful microprocessor. Apart from reduced size, it also lowers the defective rate of UPS.
- **Communication Port:** User can control and monitor UPS status easily by using USB and RS-232 communication port or SNMP card (optional).
- Modular Design: Nirantar Online is the modular design UPS. There are many small modular boards on the Power Board. The modular design helps technicians to maintain and repair the UPS easily and the product performance will be more stable.
- **Power Management Software:** To provide the battery control of the Nirantar Online UPS, Software CD is bundled to monitor and manage UPS working status easily and in real time.
- Selectable Output Voltage: Nirantar Online UPS enables user to select corresponding output voltage to the local mains power without changing hardware. Users can select output voltage by just pushing a button.
- OVCD Function: OVCD (Over Voltage Cut off Device) function helps to protect the connected devices even at High Voltage. The output power will be cut off automatically when the Input voltage reach to 300V and again start when the Input voltage come back to 280V.

Features:

- 1KVA Online UPS System
- Trendy and elegant LCD design for real-time UPS system information
- High frequency and Double conversion online technology
- Advanced Power Factor Correction
- Comprehensive Self-Protection Design
- Generator compatible
- True Online Zero transfer time
- Microprocessor Control Guarantees High Reliability
- Wide Input Voltage Range
- User Selectable Output Voltage
- Cold Start Function
- Sine wave pulse width modulation
- USB and RS232 communication port for monitoring

MODEL		iBall Nirantar Online UPS – 1201E

iBall Nirantar Online UPS - 3019E(W/O Battery)

Key Points:

- LCD Display: Trendy and Elegant LCD Design for real-time UPS system information like Input / Output voltage and current, Load and Battery information, Bypass enable / disable selection information.
 Microprocessor Control: By means of innovative software and control programs, the complicated hardware circuitry is inlaid in the powerful microprocessor. Apart from reduced size, it also lowers the defective rate of UPS.
- **Communication Port:** User can control and monitor UPS status easily by using USB and RS-232 communication port or SNMP card (optional).
- Modular Design: Nirantar Online is the modular design UPS. There are many small modular boards on the Power Board. The modular design helps technicians to maintain and repair the UPS easily and the product performance will be more stable.
- Extended Backup Time: User can connect external batteries to get prolonged backup time. The feature is suitable particularly for the areas where power supplies are consistently in shortage.
- **Power Management Software:** To provide the battery control of the Nirantar Online UPS, Software CD is bundled to monitor and manage UPS working status easily and in real time.
- Selectable Output Voltage: Nirantar Online UPS enables user to select corresponding output voltage to the local mains power without changing hardware. Users can select output voltage by just pushing a button.
- **OVCD Function:** OVCD (Over Voltage Cut off Device) function helps to protect the connected devices even at High Voltage. The output power will be cut off automatically when the Input voltage reach to 300V and again start when the Input voltage come back to 280V.

Features:

- 3KVA Online UPS System
- Trendy and elegant LCD design for real-time UPS system information
- High frequency and Double conversion online technology
- Advanced Power Factor Correction
- Comprehensive Self-Protection Design
- Generator compatible
- True Online Zero transfer time
- Microprocessor Control Guarantees High Reliability
- Wide Input Voltage Range
- User Selectable Output Voltage
- Cold Start Function
- Sine wave pulse width modulation
- USB and RS232 communication port for monitoring

Specifications:

MODEL		iBall Nirantar Online UPS – 3019E
