Amazing clarity.
Brilliant Performance.

Explore the Award winning
Dell Monitors range now.

Most Dell monitors meet environmental certification standards like ENERGY STAR®, EPEAT and TCO Certified Displays.

ENERGY STAR® is a joint program of the US Environmental Protection Agency and the US Department of Energy, helping us all save money and protect the environment through energy efficient products and practices.

EPEAT stands for Electronic Product Environment Assessment Tool, a set of performance criteria for evaluating electronic products' environmental attributes in both public and private sectors, with Gold being the highest standard.

TCO certified goes beyond green by combining features such as high performance and ergonomic design with the toughest environmental requirements on the market. Monitors labeled with TCO Certified Displays fulfill some of the world's strictest demands for climate and environmental impact, picture quality and user safety.

Premium Panel Guarantee
Ever notice a bright spot on a monitor that won't go away? Dell has — and we know it's annoying. That's why Dell is now offering a Premium Panel Guarantee that ensures zero "bright pixel" defects. Reinforcing our unyielding commitment to quality and satisfaction of our customers, we offer the Premium Panel Guarantee for our Dell UltraSharp and Professional monitors purchased from Dell.
